Dr Howard Robinson announced as ASI's new Managing Director

➔ ASI Solutions Limited is pleased to announce the appointment of Dr Howard Robinson as its new Managing Director.

➔ Howard is a well-known figure in the highways industry, having served as Chief Executive of the RSTA for the last 10 years where he has overseen a growth in membership and significantly increased peoples knowledge and understanding of asphalt maintenance through training, working with Highways England, local authorities and consulting bodies. Before that Howard held a number of senior roles in Tarmac, Nynas Bitumen and Wimpey Minerals.

➔ Howard has a number of commitments with the RSTA for the rest of 2018 and will formally join ASI in January 2019.

➔ ASI is best known for RHINOHALT®, a penetrative asphalt preservative, which can significantly extend the life of asphalt surfaces. Over 15 million square metres of roads, runways and taxiways in the UK and overseas have benefited from being preserved with RHINOHALT®.

Dr Howard Robinson BSc, Ph.D, C.Chem, MRSC, C.Sci, MEI, FCIHT, MIAT
